MAIC® WiFi

MAIC WiFi is supported by all MLS devices.

MAIC® (MAIC®WiFi // MAIC®3G / 4G)

You can activate the "Automatic MAIC activation" option by choosing the MAIC application via the main menu. Every time you unlock your device, MAIC will activate for a few seconds and in that time, you can open any of the preset Applications, have access to important settings of your device, search the internet, look for YouTube™, videos, find pharmacies and hospitals on duty, the closest gas stations and learn the weather forecast. Whenever you wish, you can chose the MAIC icon on the home screen and initialize any of the aforementioned activities.

Apart from Talk&Call and Talk&Drive, the remaining MAIC services require an internet connection in order to function.

MAIC® 3G / 4G

MAIC 3G/4G is supported by all MLS devices with a SIM card and It can be installed via the page "graphics" of your device.

Talk&Call® (MAIC®3G / 4G)

In order to activate the "Talk & Call" application, just tap the MAIC icon and, when asked to speak, say "Call+" the contact you would like to call". Furthermore, you can touch the Talk&Call icon of your home screen to quickly and easily initiate a voice call to any contact you wish. Your MLS smart device will recognize the name, no matter how you had input it (greek, greeklish, language combinations,

Say the name

Cancel

i.e. John Olkonomou) and will automatically call the person you would like to speak with.

Talk&SMS® (MAIC®3G / 4G)

In order to activate the "Talk & SMS" application, just tap the MAIC icon and, when asked to speak, say "Message+" the contact you would like to call".

Furthermore you can touch the icon "Talk&SMS". Initially, just like in Talk&Call®, say the name of the recipient and then dictate the message you wish to send. You can always proofread your message before you send it.

In case you want to send a message from your car, tap the MAIC main key and say "Car message".

Unlike the regular function of Talk&SMS®, the recording automatically stops when you stop dictating. The application will then automatically read the message it recognized for your confirmation and then you can send, repeat, edit or cancel the message by voice command. In that way, the entire process will be completed without you having to read or tap any key at your device!

Talk&Search® (MAIC®WiFi // MAIC®3G / 4G)

With Talk&Search® you can now voice search GoogleTM in Greek. To activate Talk&Search just tap the MAIC key and, when asked to speak, say "Talk & Search".

Dictate the text of your search, i.e. Nikos Galis, and the search engine will show you all the relative results. You can also search for people, locations, restaurants etc., even in English, i.e. Michael Jackson or Shark and all relative results will appear. Furthermore, there are the following options regarding "search":

- If you say "YouTube Antonis Remos", MAIC will show you all related Remos' videos. If you say "Play Mitropanos Rosa" then MAIC will find the video and start playing it automatically.
- If you say "Restaurant + the name of the restaurant you're interested in", MAIC will locate the restaurant and will show you on the screen the map location, option for instant call to the restaurant but also navigation instructions on how to immediately visit it via Talk&Drive. In case you have not yet connected your earphones to the device, you can perform these commands by voice.
- If you say "Encyclopedia elephant", the relevant entry in MLS Pedia will appear.

Talk&Watch® for YouTube™ (MAIC®WiFi // MAIC®3G/4G)

Activate Talk&Watch just tap on the the MAIC icon and when asked to speak, say "YouTube" and MAIC will ask for your search subject. Furthermore, you can tap at one of the two Talk&Watch® options on the home page.

With the right Talk&Watch® for YouTube™ key, you can search for videos in English, i.e. Coldplay.

By tapping on the Talk&Watch® for YouTube™ left key, you can search for Greek videos, i.e. Sakis Rouvas or Se pethymisa.

Encyclopedia (MAIC®WiFi // MAIC®3G / 4G)

With MLS Pedia® your device is transformed in a mobile encyclopedia. MAIC will track down all the information that you need, but also read aloud a synopsis of the results found for you.

To activate MLS Pedia®, just tap on the MAIC icon and, when asked to speak, say "Encyclopedia". MAIC will reply: "Tell me what you're interested about". For example, if you say: "lion" MAIC will show you the text and the pictures (if available), and it will also read out loud the first two sentences of the text.

You can also activate MLS Pedia® by tapping on the relative icon on the second screen. When using MLS Pedia, you can do a new search by tapping the icon .

Gas stations® (MAIC®WiFi // MAIC®3G/4G)

With Gas Stations®, MAIC can locate the nearest gas stations to your location. By choosing the one you prefer, it will give you the route information, as well as the addresses. You can choose "Navigation" in order to reach gas station of your choice in the shortest way possible.

Pharmacies® (MAIC®WiFi // MAIC®3G/4G)

With Pharmacies®, MAIC can locate the nearest pharmacies to your location. By choosing the one you prefer, it will give you the route information, as well as the addresses. You can choose "Navigation" in order to reach gas station of your choice in the shortest way possible.

Talk&Email® (MAIC® WiFi // MAIC® 3G / 4G)

To activate Talk&Email just tap the MAIC key and, when asked to speak, say "E-mail". The following image will appear on the lower left hand side of the screen, where you will dictate your message. As soon as you complete your dictation, tap the send button.

In case you wish to change something on your text, do not worry - you can always correct your message before you send it. The first time that you'll send an e-mail, you'll have to pick which e-mail account the program will use.

MLS Talk&Translate® (MAIC® WiFi // MAIC® 3G / 4G)

With MLS Talk&Translate®, MAIC can translate a word or a sentence from greek to english and vice versa and show you the translated text on the screen while, at the same time, you can listen to the correct pronunciation by tapping .

To activate MLS Talk&Translate®, just tap on the MAIC icon and, when asked to speak, say "Translation". MAIC will reply: "Tell me the text for translation. For example, if you say: "Good morning"

MAIC will translate it in english: "Good morning" by showing the text on the screen and will voice the translation with the correct pronunciation.

With the key   you can chose to translate from greek to english and from english to greek

You can also activate MLS Talk&Translate® by tapping on the relative icon on the second screen. While you're using MLS Talk&Translate, You can do a new translation by tapping the icon .

Talk&Photo (MAIC® WiFi // MAIC® 3G / 4G)

With MLS Talk&Photo® you can take a picture only by using your voice. To activate MLS Talk&Photo®, just tap on the MAIC icon and, when asked to speak, say "selfie". Talk&Photo® will take your picture, as long as you say one of the words "selfie", "photograph", "smile", "take picture". You can also activate MLS Talk&Photo®

simply by tapping on the relative icon on the home screen.

Voice keyboard (MAIC® WiFi // MAIC® 3G / 4G)

Tap the box on the lower left side icon  on the applications that include a keyboard and dictate your text. MAIC will type it for you.

When you're sending a message, the microphone icon will appear with the indication Talk&SMS. Furthermore, when you're sending an E-mail or a Gmail, the microphone icon will present the indication Talk&Email.

MLS Caller ID® (MAIC® 3G / 4G)

When you receive a call from a number that is not in your contact list, the MLS Caller ID® will show you the registered name/ address, if it is registered. The number is also recognized in the call history.

If the information comes from the MLS Caller ID® then the data is shown in italics and brackets as shown in the picture on the right.

You can save a contact identified by MLS Caller ID® (from call history). Simply clicking on the number opens a window and you select "Create new contact". This automatically complements the fields it has found available (e.g., name, address, etc.).

Talk&Drive® (MAIC® only for devices that have a GPS tracker)

Navigate anywhere with the touch of a key and the speed offered by the top navigation system MLS, the No.1 in sales MLS Destinator Talk&Drive®.

Just tap on the "Talk&Drive" icon in your home screen, talk to the device and the MLS Destinator navigator will guide you to your destination, easily, quickly and with safety.

Some of the MLS Destinator characteristics are: Route calculator, detailed navigation with clear visual and voice instructions, two-dimensional and three-dimensional map option for your convenience, route calculation without the use of GPS, route calculation based on coordinates that have been received via text message, quick re-calculation of your route, option to save multiple maps of different countries in just one memory card.

Talk&Clock®

To activate the voice alarm clock touch the MAIC key and say «alarm clock» or «wake up» or «wake me up». MAIC will reply "Dictate the time" and the left screen will simultaneously appear, while it's waiting for you to talk.

Speak the time. For example, "8 in the morning" "9 fifteen at night" "twenty past 7 pm"

The alarm clock will be automatically set and MAIC will open the alarm clock screen.

Talk&Calculate®

To activate the voice calculator touch the MAIC key and say «Calculate» or «Calculator».

or "25487 divided by 154".

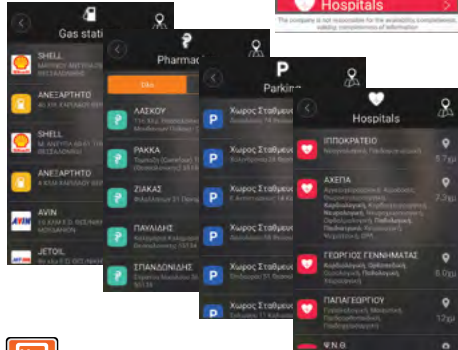

MAIC will show the result and will also dictate it for you.

WARNING: Only the 4 basic operations (addition, abstraction, multiplication, division) are supported. The range of numbers MAIC can perceive is -99999 to 99999.

MLS Live (MAIC® WiFi // MAIC® 3G / 4G)

With MLS Live, you have access to a series of LIVE updates only with your voice. To get information from an MLS Live service, just tap on the MAIC key and, when asked to speak, say for example "open pharmacies" or "gas stations" or "hospitals" and MAIC will locate those nearest to you and navigate you there using Talk&Drive. Furthermore, by saying "weather" you'll get information on the weather forecast of your region!

You can also activate MLS Live services by tapping on the relative icon on the second screen.

You can choose between different interfaces from the "WIDGETS" of your device in the "MLS Live" category.

NOTE You should check regularly the MLS Updater for updates, in order to keep your device always updated and in excellent condition.

Quick Guide (Android)

Main menu

Navigate on the main menu by dragging the screen left and right to switch pages on the main menu. Tap and hold on any icon you want, in order to drag it to the main screen, as a shortcut. To go back to the main screen press the corresponding key.

Lock & Unlock

In order to lock your device, tap the activation key. In order to unlock your device, tap the activation key. When the lock icon appears on the screen, drag upwards.

Settings

To access all settings options, touch the top of the touch screen and drag downwards twice. By tapping on the following key you can access the general settings. On the "Settings" screen, you can personalize your device to suit your needs, by setting its functions accordingly. Networks, WiFi, Bluetooth settings, sounds, appearance, applications, all at the tips of your fingers.

MAIC (Settings)

You can set the basic functions of your device through MAIC. Specifically, you can activate/ deactivate the Bluetooth, wifi, data use, gps and silent mode by using voice command.
